THANKSGIVING.

Of all Thanksgiving days in the history of this great country of ours, Nov. 28, 1918, proved to be the most universally observed. Not since the first Thanksgiving proclamation issued by President Geo. Washington in 1789, have we had so much to be thankful for.

Other years we have given thanks for bountiful crops, prosperity, etc. This year we add thanks for the cessation of the greatest war known in our history; that it has practically ended, and ended right.

Locally, every business house, shop and office, were closed for the day, and services were held at the churches, and these were well filled with thankful worshippers.

Verily, Thanksgiving day, last will long be remembered.

None like Nunnally's. She knows the quality of it. Get Nunnally's at Wear's.

Some papers say that Stanley and Beckham favor Percy Haley for Governor. Great Scott! It goes from bad to worse. But we suppose debts must be paid. Please don't!

Calloway county and the First District generally furnish the Democratic majority that carries the state ticket to success; and candidates cannot afford to ignore this fact.

Hon. John C. Duffy, of Hopkinsville, has announced for Railroad Commissioner in the First District.

Mrs. Emily Watterfield, widow of the late D. F. Watterfield, died at her home 206 N. Fifth St. Monday night about 12 o'clock, aged about 77 years, after an illness of several weeks. She was a splendid Christian lady with many admiring friends. She is survived by two daughters and four sons, Chief of Police D. F. Watterfield, being among the number. Burial at Goshen, her old home church, Tuesday afternoon, after funeral services conducted by the pastor, Rev. A. C. Moore.

OVER-SEA BOYS ARE NOW COMING HOME.

The Mauretania was the first ship to bring the soldiers home from France. She landed at New York Sunday night. They go first to barracks at Camp Mills for physical examination, and then home.

The hospital ship Northern Pacific brought 1,100 wounded soldiers. These will go to the hospitals for the present.

There are 13,590 more soldiers enroute. Others will follow this week and next.

TOBACCO.

Activity in the local tobacco market is expected by the first of next week. With the coming of December renewed interest is expected in tobacco and spirited buying is predicted. Thus far the season has been comparatively dull and the market unsteady, with little business by manufacturing interests for immediate needs, say the Paducah papers.

FARM FOR SALE.

100 acres, on the Murray and Pine Bluff road, one mile East of Pottertown, 50 to 60 acres in Wildcat creek bottom; about 30 to 40 acres in timber, worth at least \$1000. Improvements consists of two-room dwelling, well in yard, 2 stall stable with loft, good tobacco barn. This is a good farm on public road, near church and school. It can be bought for \$4000, and with \$1000 paid in cash the remainder can be paid \$400 to \$500 per year with interest. This is an opportunity for some one who is looking for a good place at a reasonable price and with terms of payment which don't much more than paying rent.

A. B. BEALE, Murray, Ky.

Geo. Cobart, a husky Kentucky soldier, whose home is at Livermore, and Miss Tena Alexander, this city, were married at the home of the bride last Saturday evening. Eld. Drash, of the First Christian church, said the ceremony that united the happy hearts. The groom has been in the service several years and received his discharge at Camp McArthur Tex., a few days since. The bride is the daughter of Mrs. Wm West, and is an admirable young lady. A host of friends join in congratulations.

Better than mistletoe, and just as good an excuse—Nunnally's. Get it at Wear's.

A bunch of fair(?) gypsy women, while passing through Carlisle county last week succeeded in relieving several gentlemen of their purses, containing some two or three hundred dollars, while pretending to tell their fortunes. However, later the bunch was arrested and the money recovered. Better let your "fortunes" tell their own tale as you go along through life.

SAVE TROUBLE—The fellow who took curtains and oil can from Boaz Gibbs car on the night of the party at Porter Dick's, can save himself trouble by returning same, at once.

The joy of Christmas is in giving gifts worth while. Give Nunnally's if you would give joy.

Judge Edwards is expecting Mrs. Edwards home today. She has been visiting her children in Memphis, Arkansas and Oklahoma for several weeks.

Rev. R. W. Hood, one of Calloway's good preachers, has his paper changed from Ripley to Martin, Tenn.

All parties wishing to take part in the Fiddlers' contest, be sure to leave name with J. R. Oury, or at Times office, at once.

UNION SERVICES AT 1st. CHRISTIAN CHURCH.

On Thursday morning at 10 o'clock, a large crowd assembled at the First Christian church in a Thanksgiving service.

The audience was made up of members of the different churches, and friends, and all seemed deeply sensible to the manifold blessings God has so bountifully bestowed upon the people.

The music was rendered by a mixed choir from the churches. The sermon was preached by Eld. L. F. Drash, the new minister of this church, and was well received by the audience.

The Murray Saddle and Harness Co. has rented the new Whitnell building on the East side and will move their saddle and harness department there while the room they now occupy will be retained for buggy department. This firm is one of the largest in the city, and enjoys a splendid trade.

The Bank of Murray is making the largest statement of any banking business ever conducted in the county, nearly a million dollars. This enterprise speaks for itself, and needs no words of commendation from us. See the figures for yourself.

A box Nunnally's is one of the most acceptable gifts. She will appreciate it.

A TRIBUTE

Our hearts have been greatly saddened by the passing away of Warren Swann, Jr. A child of rare intellect, tender and affectionate by nature, possessed of a cheerful, happy disposition, he had endeared himself to the membership of the First Christian Bible School. Though he was young in years, he had already begun to plan for his life work, saying just before his death, "I think I shall be a Medical Missionary that I may be able to heal the body as well as the soul."

Words seem poor to express all we feel for the parents and relatives so sorely bereft. May the Father who watches so lovingly over His own, comfort them in their loss.

Warren Jr. was happy here, he is still happy, in that vast sweet song.

Safe in the arms of Jesus, Safe on the gentle breast.

Up from the city's by-ways, from the breathless sickening heat, to the wide swung gates of Heaven, eager through the little feet.

Not a challenge has the warder of these souls so sinless white, round each brow the Savior's

Helping You Make a Selection
We believe that a part of the service every jewelry store should render is wise counsel and helpful suggestion. Of course, there should be a wide range of selection—a full stock of the many beautiful and useful things that are associated with this type of store. Here you will find a practical expression of that friendly interest in every purchase you make. Watches, silverware, brooches, bar pins, jewelry, cut-glass—the best and the latest of these with an eager willingness to show them and describe their good points.

We are very particular as to the quality and workmanship of rings sold over our counters. That is the reason why we so strongly recommend W. W. W. Gem-Set Rings with their strict Guarantee. They cost no more than ordinary rings.

bleeding circles like a crown of life.

See the Lord Himself stands waiting, wide his loving arms and spread in his hands of hearts is pillowed every precious baby's head.

But below, with tear wet faces and with hearts all empty grown, stand the mourning men and women vainly calling back their own.

Upward floats the voice of mourning, Jesus, Master, dost thou care, aye He feels each drop of anguish, he doth all all our sorrows bear.

Lift thine eyes, oh heavy laden, look beyond the clouds, and see with thy dear one on his bosom Jesus stands and waits for thee.

Waits with yearning all unfathomable, love we cannot under-

stand, lures us upward with the beckoning of your buried baby hand.

Eld. Drash preaching his initial sermon as minister of the First Christian church. Sunday morning, favorably impressed a large audience. His talk was directed more especially to the membership and was a pleasant thoughtful discourse delivered with a direct forceful style.

PUNISH PROFITEERS.

The following from an exchange meets our views exactly:

"The matter of outrageous and unwarranted high prices is of vital interest to millions of our people, who are affected by the era of unprecedented and exorbitant living cost. Exact-ing excess profits from the bread of a patriotic people who are bending every energy and making sacrifices to help the government win the struggle for democracy and world freedom surely approaches a capital crime. The Government should check an unscrupulous profiteering. If it cannot be done by regulation, price-fixing and heavy taxation, then some of the king-bee profiteers who prey upon the people composing this nation at a time when the nation is in dire distress should be stood up with their backs to a stone wall."

How quickly can you tell a live town from a dead one by simply looking over its newspaper. Poor skim-milk sort of a newspaper with a few small advertisements and those looking as though they were run at half price, betoken a dead town just as surely as a corpse indicates a funeral, while a good, lively, well-printed paper, well filled with good, fresh ads, and displaying local shows that the town is prospering and thriving. It never fails.—Ex.

The State Board of Health has put a ban on gatherings of all kinds in Graves county, outside of Mayfield, on account of the influenza.

AMEN!

It is reported in the public prints that Congressman Barkley is considering the introduction of a bill in congress to make another holiday. For the Good Lord's sake, don't do it, Mr. Barkley. The country is now loaded down with holidays, and if we get a few more, on the statutes there will not be enough left to give a fellow a sufficient amount of time to make a living. Run for governor if you want to, and do anything else, but for the love of Mike, don't branch off and try to get any more holidays.—Bardwell News.

Gift-giving to men is not difficult if just a little judgment is used in the matter of selection. Men are fond of practical, useful things—watches, scarf pins, cuff buttons, stud sets and rings—rings are always acceptable—always in good taste.

But these gifts must be substantial. They must reflect good judgment on your part. Rings, for instance, if gem-set, should be guaranteed. A man wears a ring to work—wears it on all occasions. Absolute dependability is necessary. This is characteristic of the fine W.W.W. line of rings. They ARE guaranteed.

ACTIVE SERVICE WITH A. E. F.

Mrs. Stephen Edwards,
Dear Mother:

In one of your last letters, and there were five of them, you said you saw in the paper where the Marines were not fighting any more but were guarding prisoners. If you have any pride in the marine corps, I wish you would write the editor of that paper and tell him to recall that statement; the marines are no bomb proof outfit and never will be. Speaking of trenches, you never stay in a trench now; when we reach our affectives they pass the word, "dig in," and you have never seen the dirt fly as it does then. The idea is to dig as small hole as you can squeeze into in as short time as possible before the German artillery opens fire on you. An old shell hole is a good place to dig in, and shovels, picks, bayonets and mess kits are used in the haste to get a hole big enough to lay in. In our last attack we were waiting in a shallow trench on the crest of a hill for the word to go; the whole valley behind us was full of our guns, and it was one of the grandest sights ever seen; it was just before daylight and the whole sky was red with the flash of the guns and there was nothing but one steady roar. The Germans were sending up flares and rockets of every description. At a time like that is when the Americans smile and all is well. Don't get an idea that we like to go up to the front, for we don't, but when we do have to go we go in the best of spirits, and when we go after Fritz it is with a yell. The artillery don't like the marines for the reason we go too fast for them and they can't keep up with us. When the

time comes for us to go over, they say, "there goes the dam marines, now we will have to move forward soon. Write often; with love."

Your son,
Stephen Loch Edwards.

SUCH EVIDENCE OUR READERS CANNOT DISPUTE.

As we take up the Times week by week, we are struck by the hearty, unmistakable way in which witness after witness speaks out as Mr. Marshall does here. If these people were strangers living miles away, we might take little notice of them. But they are not. They are our neighbors, living among us. Their word is too easily proven to admit of any doubt. They speak out in the hope that their experience may be a guide to others.

ALLIES ARE FED BY SELF DENIAL

Generous Doing Without in America Supplied Food to Europe.

Exports from this country since it entered the war have kept starvation from Allied Europe and have maintained the health and strength of those who have been bearing the brunt of our battles, so that they could hold out to victory. Now that hostilities have ceased we must assume the added burden of keeping starvation from increasing its toll upon the millions who have been liberated from the Prussian yoke. Famine would undo the work which has been accomplished in freeing the world for democracy. No stable government can be established and maintained by a nation harassed by hunger. A starving people turns to rioting and anarchy. Food has given strength and courage to the nations fighting for democracy; it must now give the nations strength and tranquility to re-establish themselves in freedom and democracy.

Without our help it would have been absolutely impossible for the Allies to maintain a living ration. Since our entry into the war we have been contributing largely to the support of one hundred and twenty million people whose normal food supplies have been cut off, whose production has fallen almost to the vanishing point, whose fields have been devastated by Germany. The food exported from the United States in the past year has been sufficient to supply the complete ration of twenty-two million people.

It is hard to grasp the magnitude and significance of the assistance which has been lent the Allies by the patriotic, voluntary service of the American people. The food we sent abroad last year would have been sufficient to feed one-fifth of our population. And this was done in spite of the fact that we entered the year with short crops. Our surplus was practically nothing. An overwhelming proportion of the food that left this country last year was saved out of the normal home consumption of our own people.

In spite of difficulties met in internal transportation and shortage of ocean tonnage our food exports last year amounted to a figure that a few years ago would have been unbelievable. Even the most optimistic element of our population faced with anxious consternation the prospect which opened before us with the beginning of the 1917 harvest year.

The American people have not been compelled to save. They have been appealed to on the basis of humanity and of patriotism. They have responded voluntarily.

Besides such incidental benefits as the improvement in figure and health that we've reaped from our meatless, wheatless days, think of the fun we've had out of them—the new crop of jokes, flims, topical songs and cartoons to replace the mother-in-law joke and the boost to our reputation for ready humor!

Eighty millions of men cannot be taken out of production for four years without losing losses of yield. It will be years before their fields recuperate, farms are restored and herds restocked. Save food.

Our former correspondent and friend, H. C. Armstrong, now in France, has favored this office with a copy of the Stars and Stripes, a newspaper printed in the army and for the soldiers.

PEACE ADDS TO U. S. FOOD TASK

Europe Needs Nearly Double Last Year's Supplies From America.

ECONOMY MUST CONTINUE.

World Survey Shows Sufficient Wheat, But Shortage of Fat—Government's Stimulative Program Justified.

With the return of peace America is confronted by a food problem even harder of solution than that with which we coped in time of war. We have an entirely new world situation in food. It will mean essential changes in our domestic program. But more important than this, it means necessity require increased export.

Last year we shipped 11,520,000 tons of foodstuffs to the European Allies. Had the war continued we would have increased this enormous figure to 17,500,000 tons in the present year. Now, with the responsibility of feeding millions of people liberated from the German yoke, our exports must be brought up to at least 20,000,000 tons—practically the limit of leading capacity at our ports.

World Food Demand Increased. The end of the war will create an enormously increased demand for food. Humanity demands that the starving millions freed from Prussian oppression shall have sufficient supplies to assure their return to health and prosperity. If these liberated nations are faced with starvation they cannot establish orderly governments. Hunger breeds anarchy in a people. The war to free the world for democracy will be lost after it has been won. America must continue its work to liberation and by sharing its food make democracy safe in the world.

In order to meet this new situation the Food Administration has made a careful survey of the food resources of the whole world in relation to the total demands. Computing supplies on the basis of the avoidance of waste and war consumption, it is found that wheat and rice may be obtained in sufficient quantities to meet economical food consumption; high protein food for dairy animals will show a shortage of about 3,000,000 tons, while there will be sufficient supplies of other feeds to allow economical consumption; beans, peas and rice will also be found in sufficient quantities to maintain economy in consumption; there are sufficient supplies of beef to keep pace with the capacity of refrigerating space.

Great Fat Shortage. The most distinct reversal of policy will come with pork and dairy products, vegetable oils, sugar and cottonseed. Utmost economy will be required in the use of fats and oils, in which there is a world shortage of about 10,000,000 pounds. There are sufficient supplies for us to return to our normal sugar consumption if other nations continue their present short rations, or even if their rations are slightly increased. If the European countries, however, are to resume their normal sugar consumption it will be through our continued conservation in order to share with them. There is a surplus of coffee.

Of the world total required to produce these results North America will furnish more than 60 per cent. The United States, including the West Indies, will be in a position to furnish a total of about 20,000,000 tons—against our pre-war exports of about 6,000,000 tons.

The bread grains situation allows the world to abandon the use of substitutes in wheat bread and supply has accumulated in the Argentine, Australia and other hitherto inaccessible markets. A continued high milling percentage, economy of consumption and elimination of waste make it possible for the world to return to a white wheat loaf.

Of all our export possibilities in fats, the largest and most important item is pork. While we cannot supply the world deficiency, we will be able to help it enormously because of the past policies of stimulating production and restraining consumption. The government's policy with regard to stimulating the production of wheat and of pork, the readiest source of fats, is thus amply justified by the situation upon the return of peace.

Famine Specter Still Stalks. The people of the United States must continue care and wise economy in the use of food in order to complete the work of liberating the world. But even with the utmost conservation and production in this country there will be in Europe for the next year or more starvation beyond all human power to allay. In North Russia there are 40,000,000 people to whom food cannot be made accessible this winter. Their transportation is demoralized in complete anarchy. And even if internal transport can be assured their ports of entry would soon be frozen. Millions more who have felt keenly the oppression of war will be beyond reach of assistance.

We must realize that upon our shoulders rests a greater responsibility than we have ever before been asked to assume. We must realize that millions of lives depend absolutely upon the continued service and sacrifice of the American people.

We must realize that the specter of famine abroad now haunts the abundance of our table at home.

For useful, handsome, appropriate gifts, call on E. B. Berry, the jeweler. Buy early and you will avoid the crowds who wait until the last day.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hays, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health. . . I can do my work. I feel owe it to Cardui, for I was in dreadful condition. . . If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial."
